Software Development Engineer 2

July 2021 – Present Gurgaon, India

- Building the Customer Supply Referral Program to allow Hotel Owners to reward referrers for bringing new customers to their property.

Software Development Engineer 1

Aug 2020 – June 2021 Gurgaon, India

- Led the Growth pod in the China Migration project - Global codebase on China infrastructure. Successfully dealt with challenges faced in data migration (AliCloud MySQL to AWS Postgres) and cultural connect.
- Led & developed the In-Store product to onboard OYO's walk-in customers to Web & Mobile App.
- Developed an in-house Branch alternative (deferred deeplinking) due to its unavailability in China region.
- Restructured the Meta Platform to enable syncing of prices to different partners (Google, Bing, FB) without increasing throughput on downstream systems.
- Scaled Wizard for International markets by adding support for country, currency, language, etc. Currently live in India, Indonesia & Malaysia.

Software Development Intern

Jan 2020 – July 2020 Gurgaon, India

- EB to Kubernetes migration of all microservices of the team.
- Devised a price sync spanning across multiple hours for syncing prices to Google which can be supported by downscaled systems. Regained the price coverage to 56% which had dropped down to 6%.
- Retry mechanism for Wizard reports to handle cases where pod terminated randomly during reports generation.
